Please send out cables of invitation to the above eight persons. A draft of such a cable is enclosed.

Please also make ten reservations in a first class hotel for three nights, beginning December 4. Four of the aforementioned will bring their wives.

I understand you will get two dissidents as well as at least two Italians to participate in the discussions; that the news media will be invited and that English-Italian simultaneous translations will be installed. Furthermore, as agreed, you personally will open and preside at the first session.

In announcing the event to the press you will, I hope, state that the seminar was made possible by the help obtained from the Center for Strategic & International Studies, Georgetown University in the U.S., and the Labour & Trades Union Press Service in London.

I look forward to seeing you in Venice on Sunday, December 4.

Best wishes.

Yours sincerely,

Joseph Godson
European Coordinator.

Dear Gino,

As I told you this morning over the phone, I have been asked to look into the background of the "Eastern Europe Solidarity Campaign (EESC) and to prepare a report for our Union's National Executive.

You will no doubt understand the still existing hesitations of a Union like the TGWU to get involved actively in such an organisations after a long history of friendly links with the official Trade Unions in the Soviet Union and in a number of other Eastern European countries.

You will agree with me, however, that it is high time, that a strong and democratic Union like the TGWU, which has always been very active in campaigns against the right wing dictatorships in Latin America, Spain, Portugal and Greece, as well as against Apartheid in South Africa, should turn its attention as well to the offences against human rights in the Communist countries of Europe.

I shall make every effort to obtain detailed background information about the above organisation and I would be most grateful for your assistance in this respect.

Kindest regards
yours,
Eli
